Unleashing the power of collaborative play to build self-confidence and friendship skills!

Shooting Stars: K - 1st

K-1 groups will enjoy physical, creative and imaginative activities that focus on team-building, cooperation, friendly competition and having fun!

Grow With the Flow: 2nd - 3rd

Our 2nd-3rd grade groups will also get physical, but their activities will engage them in group problem-solving and discussions, communication, sharing their perspectives and learning from other points of view.

Lofty Leaders: 4th - 5th

Our oldest group will develop the tools and self-confidence to navigate the pre-teen and soon to be middle school years. There will be plenty of skill-building through fun and friendly competition, and they'll also learn and practice strategies to effectively respond to bullying behaviors and peers conflicts.

PLAY WITH A PURPOSE!

Since 2009, Connect Us has been helping kids build self-confidence, resiliency and friendship skills through facilitated, collaborative peer groups that foster teamwork, positive relationships and inclusion. Our passionate facilitators create a safe and inclusive space where kids know they're valued and safe to be themselves. It is in this supportive context that we're able to gradually raise the social and emotional bar and challenge them in ways that serve each one best.

Every Connect Us kid, regardless of social ability will play an important role in creating group cohesion. As they learn and grow from their interactions week after week, they begin to build a kind, inclusive and connected community in which skill-development and friendship can flourish.
